**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 26-29, drawn to a method for assisting installation of an electrode in a left ventricle, classified in class 600, subclass 373.
  - II. Claims 30-33, drawn to a method for installing an electrode of a VRT device in a left ventricle, classified in class 600, subclass 522.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not require displaying on a display screen an indication of the determined position of the electrode. The subcombination has separate utility such as not requiring adjusting settings used by the VRT device based upon the determined position of the electrode, but rather based upon a predetermined position of the electrode.
3. A telephone call was made to Jeramie Keys on September 19, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
